IMPORTANT INFORMATION

The designs in this book, when made to exact tension with the wool specified in the instructions, will produce garments with the same measurements as given at the top of each instruction and thus fit an average baby of the given age. There is, however, such variation in size between one baby and another that age is not, of course, a completely accurate guide.

The chest measurement and weight of baby for each size as used in this book are as follows:—

AGE	WEIGHT	CHEST
3 months	11½ lbs.	18 ins.
6 months	16 lbs.	19 ins.
9 months	19 lbs.	19½ ins.
12 months	20 lbs.	20 ins.

CHECK TENSION

The garments in this book are worked to the exact tension given. They are closely knitted to ensure a firm fabric that will wear better and keep its shape longer than a loosely knitted fabric. *Check your tension.* Before beginning your garment take the wool and needles specified. Cast on 20 stitches. Work 20 rows stocking stitch. Lay work flat on a table and place a ruler across the stitches. Count the number of stitches to measure at least two inches and compare with the tension given in the instructions. All given tension in Beehive instructions is measured over stocking stitch. If your tension is too loose try a size smaller needle. If your tension is too tight try a size larger needle. *Be sure to work to exact tension given if you want your garment to work to correct size.*

Washing Instructions For Handknits

Well knitted garments are worthy of careful treatment. They will give long service and keep their shape and softness if this simple routine is followed:—

FOR WOOLLENS

BEFORE WASHING

Take garment measurements, noting chest measurement, body and sleeve lengths.

WASHING

Dissolve completely a little soap, flakes or powder, cold water soap or good detergent in a small quantity of hot water.

Add cold water until the soap suds are only lukewarm (too hot for the elbow is altogether too hot for woollies). Detergents require much cooler water.

Place the garment in the suds and squeeze gently. Do not rub or leave to soak.

When the garment is clean, squeeze as much water out as possible but do not wring or twist.

Keep the garment supported by the hands whenever it is removed from the water.

RINSING

Rinse at least twice in clean water, no warmer than the washing suds. *Every trace of soap must be removed.*

Be sure to add a small amount of white vinegar to the final rinse water. This is most important, when more than one shade is in the garment, particularly when one is WHITE.

DRYING

Never let woollies lie wet. Remove all moisture at once by rolling in a thick towel.

Lay garment on a flat surface away from excessive heat AND SUNLIGHT.

Gently push it back to its original size and shape as indicated by measurements taken before washing. Wrinkles may occur but these will tend to disappear as garment dries. *Do not hang up.* Dry on a flat surface.

FOR CAREFREE YARNS

MACHINE WASHING AND DRYING

Machine wash, using warm water and any detergent. A small amount of fabric softener may be added to final rinse water, if desired.

Machine dry, using low setting only.

Do not over heat.

Garments actually tend to stretch when wet to allow for better washing action but return to original size when completely dry.

HAND WASHING AND DRYING

Wash gently in warm water, using any detergent. Rinse well in cool water. A small amount of fabric softener may be added to final rinse water, if desired.

Squeeze out excess water, roll in towel, twist and squeeze again.

Lay garment on a flat surface. Gently push back to original size and allow to dry thoroughly. *Do not hang to dry.*
